- Mobile App development.

2023

Introductory Course to Testing (176 hours)

Escuela de Organización Industrial (EOI)

- Unit Testing
- Front-end Integration Testing
- Back-end Integration Testing
- E2E Testing
- CI/CD

EXPERIENCE

Online shop

<https://online-shop-five-alpha.vercel.app/>

- Implemented **React** functionalities such as State and Context, and **Next.js** functionalities such as Dynamic Routing and SSR.
- **Responsive design** to ensure compatibility among devices.

CRUD Application

<https://think-share.vercel.app/>

- Built and managed a non-relational database (**MongoDB**) through REST API's, allowing to create, read, update and delete data.
- Designed using a CSS framework (**TailwindCSS**).

Reading List

<https://readlist-opal.vercel.app/>

- Developed with **TypeScript** to avoid errors with a stricter code.
- Used **ESLint** to detect errors and bad practices and increase control on my own code.

Wordle

<https://wordle-zeta-five.vercel.app/>

- Developed with **TypeScript**, **React/Next.js**, **TailwindCSS** and **ESLint**.
